Career Objective

I am a passionate Frontend Developer interested in building clean, responsive, user-friendly web interfaces. I aim to grow my skills by working in a collaborative team and contributing to real-world projects.

Skills

Technical Skills: HTML, CSS, JavaScript, React, Node.js, Express.js, MongoDB, Firebase, Tailwind CSS, Git & Github
Interpersonal Skills: Communication, Teamwork, Problem Solving, Adaptability

Projects

Volunteer Management Website
Overview:
A full-stack web application for managing and posting volunteer opportunities, built with the MERN stack and Firebase authentication.
[Live Site](#)
[Client Github](#)
[Server GitHub](#)
Major Features:
- User authentication with Firebase & JWT
- Two-sided dashboard: Need Post & Request Post
- Protected routes & role-based access
- CRUD operations for managing volunteer posts

Used Technologies:
React, React Router, Node.js, Express.js, MongoDB, Firebase, Tailwind CSS, DaisyUI, JWT, Lottie, React Simple Typewriter, SweetAlert2, Netlify, Vercel

Roommate Finder Website
Overview:
A platform to help users find compatible roommates through dynamic post listings and contact details, built using the MERN stack.
[Live Site](#)
[Client Github](#)
[Server Github](#)
Major Features:
- Users can post, update, and delete roommate listings
- Protected route with details and a like feature
- Contact number revealed on like
- Responsive UI with animation & theme toggle

Used Technologies:
React, React Router, Node.js, Express.js, MongoDB, Firebase, Tailwind CSS, DaisyUI, Axios, JWT, SweetAlert2, Netlify, Vercel
